## MacroGenics Announces Pricing of Public Offering of Common Stock

ROCKVILLE, Md., Feb. 12, 2014 (GLOBE NEWSWIRE) -- MacroGenics, Inc. (Nasdaq:MGNX), a clinical-stage biopharmaceutical company focused on discovering and identifying innovative monoclonal antibody-based therapeutics for the treatment of cancer and autoimmune diseases, today announced the pricing of its underwritten public offering of 3,000,000 shares of its common stock at a price of \$36.50 per share, before underwriting discounts. MacroGenics is selling 1,800,000 shares of its common stock in this offering, and certain stockholders are selling 1,200,000 shares of common stock in this offering. MacroGenics will not receive any proceeds from the sale of shares by the selling stockholders. In addition, MacroGenics has granted the underwriters a 30-day option to purchase up to 450,000 shares of common stock, if any, at the public offering price, less the underwriting discount.

MacroGenics intends to use proceeds from the offering, together with its existing cash and cash equivalents, as follows:

- Approximately \$10 to \$15 million to fund additional clinical development expenses for MGA271, including additional Phase 1b dose expansion cohorts as monotherapy as well as in combination with other therapies;
- Approximately \$20 to \$30 million to fund research and development expenses for two additional, previously undisclosed, oncology product candidates based on the company's Dual Affinity Re-Targeting, or DART, technology;
- Approximately \$5 to \$10 million to expand the company's manufacturing facility, which should enable MacroGenics to increase its production capacity; and
- The remainder for working capital and general corporate purposes, which may include other research and development programs, in-licensing or acquiring other products or technologies.

The offering is expected to close on or about February 18, 2014, subject to customary closing conditions. A registration statement relating to this offering was filed with and declared effective by the U.S. Securities and Exchange Commission.

BofA Merrill Lynch and Leerink Partners are acting as joint book running managers for the offering. Stifel is acting as Lead Manager and Wedbush PacGrow Life Sciences and Roth Capital Partners are acting as co-managers.

The offering is being made only by means of a prospectus, copies of which, when available, may be obtained from BofA Merrill Lynch, 222 Broadway, New York, NY 10038, Attn: Prospectus Department, or via email, at [dg.prospectus\\_requests@baml.com](mailto:dg.prospectus_requests@baml.com), or from Leerink Partners, Attention: Syndicate Department, One Federal Street, 37th Floor, Boston, MA, 02110, or by phone at 1-800-808-7525, ext. 4814, or by email at [Syndicate@leerink.com](mailto:Syndicate@leerink.com).

### About MacroGenics, Inc.

MacroGenics is a clinical-stage biopharmaceutical company focused on discovering and developing innovative monoclonal antibody-based therapeutics for the treatment of cancer and autoimmune diseases. The company generates its pipeline of product candidates from its proprietary suite of next-generation antibody technology platforms, which it believes improve the performance of monoclonal antibodies and antibody-derived molecules. The company creates both differentiated molecules that are directed to novel cancer targets, as well as "bio-betters," which are drugs designed to improve upon marketed medicines. The combination of MacroGenics' technology platforms and antibody engineering expertise has allowed the company to generate promising product candidates and enter into several strategic collaborations with global pharmaceutical and biotechnology companies.
